

## VERSAPUZZLE ☆

**A great way to memorize Bible verses is with a fun, homemade puzzle.**

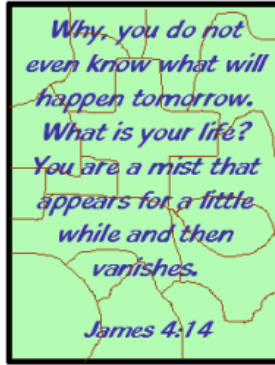

Write the memory verse on the board, or have the children look it up in their Bibles.

Provide sheets of light colored card stock or construction paper and dark colored markers. Have the children neatly write the verse to fill up most of the page. (see example).

After this, erase the verse from the board, or have the children close their Bibles.

Next, with a lighter-colored marker or pencil, have them draw lines, making it look like a puzzle. Then have them cut the pieces out, and put their unique puzzle back together at least two times.

To finish, recite the memory verse a couple of times together as a class.

Example using James 4:14 NIV

*Note:* Be sure to have some small envelopes available for the kids to gather their puzzle pieces to take home.
